Process Générique: Instance dans Base Contexte

The screenshot shows the MongoDB Compass interface. The left sidebar displays the database structure: 'local' > 'gedcase' > 'cases'. The main panel shows a document in the 'cases' collection. The document structure is as follows:

```
{
  "_id": ObjectId('69e792d733d09cd62c6c3b3d'),
  "id": "699864824ade483a40a72cac",
  "metadata": {
